THE STAR AND BULLETIN.

The Bulletin, late royalist paper, has thrown its rather soiled royalist clothing into a ditch, and now appears in a new suit, which has, like many order to treat its royalistic corns, which give it rather a limping motion. In the meantime, while it is trying to pick up some convictions, it has cordially joined the Star in making it "hot" for the ADVERTISER.

These mental and spiritual twins are rather frantic over the ADVER-TISER's views, and both have called a "halt" on it.

Like the famous Siamese twins, Chang and Ing, they are together for better or worse. Chang didn't drink, but Ing did; so when Ing got full, he filled up Chang in spite of himself. So the Chang-Star and the Ing-Bulletin, whenever the ADVERTISER is in sight, equalize the alcohol of abuse between them, and merrily keep unsteady steps to the same music. The ADVERTISER'S office cat is rather puzzled over this new manifestation, in our politics, but is quite equal to any feeble emergency which they may

Unless independent candidates bob up before elections the men nominated Saturday night will be elected on a "heads I win tails you lose" principle. The fact that there is no opposition, no second or third party in the field for political honors takes away from the election any of the deep interest shown by the people of San Francisco whose municipal and even state politics are in the hands Scribner's of Burns and Buckley. In Honolulu as in every

other locality there is more or less desire for having ice in a convenient locality at night and it is not always a pleasant task to get to the refrigerator which is usually kept some distance from the bedroom. A company in New York is manufacturing a metallic arrangement suitable for holding ice, bottles, etc., and ornatends to prevent harmony.

purchase, but they are not very inpurchase, but they of a thing like this. The mother of very young children will appreciate it because it obviates the necessity of going around at night in her bare feet and stepping on rubber balls, etc., and getting severe shocks in consequence.

The Wertheim Triplex Sew-

ing Machine leads the world. Comparing it with any other make of sewing machines is like comparing a cheap grade Scribner's of clarets with Wetmore's "Cresta Blanca" brands; like comparing the sunlight to one of our lamps with a Bradley or burner. Hubbard Wertheim is the machine for the people; every part of it is as well finished as a piano, the tables are of carefully selected wood and polished, not varnished. The mechanism is simple and not easy to get out of order. The arrangement ing the needle is such that a child can handle it as easy as a grown person. It sews three distinct stitches, chain, lock and combined lock and chain by the simple turning of a thumb screw. The tables have the drop leaf and six drawers and you can get the whole business for less than you pay for a sewing machine with only one stitch.

Physicians have stated that unless the drinking water in the Hawaiian Islands is properly filtered there is danger ficient because while the snakes, bugs, etc., are killed by the boiling they remain in the water and pass into the stomach. There is but one really effective way of removing such things and that is by using the Improved Stone which arrived on Monday brought us a large invoice of these goods in various sizes and we are prepared to offer Commissioner of Private Ways and them at very reasonable prices. If you care for your health and that of your family invest a few dollars in a filter.
